

Notice of Rate Increase

In April 2021, the Board of Commissioners passed a three year rate plan that allows for annual rate increases. **As of February 1, 2023**, the rates for water and service charges (including fire services) will **increase by 5%**. This increase reflects the rising cost of operation and infrastructure maintenance and repair.

The Board of Commissioners and staff take great pride in serving all of you. Our primary mission remains unchanged - to provide you a quality product through an efficient and customer focused public utility. We are committed to ensuring that your hard-earned money is put to work for you. These changes will continue to support our operations, provide sustained renewal of critical infrastructure, and strengthen the overall financial position of the organization.

***The new rates will be reflected on the March 2023 billing statement.
